

AFCEA Hampton Roads

AFCEA Hampton Roads Lunch and Learn - *Practical Applications of Machine Learning* - Friday, Dec. 14, 11:30 AM - 1:00 PM, Old Dominion University Tri-Cities Center, Portsmouth, VA

Join AFCEA Hampton Roads as they host a Lunch and Learn, ***Practical Applications of Machine Learning***, with Dr. Scott Starsman. In a talk about his research and expertise in machine learning, Dr. Starsman will give an introduction and overview about neural networks and deep learning technologies. He will also discuss the types of problems that can be addressed with the technologies as well as three common neural network architectures along with use cases for each. Potential C4ISR applications will also be discussed with a focus on how cybersecurity challenges can be addressed with deep learning solutions.

Registration is \$10 for both AFCEA members and non-members and free for sustaining sponsors. Lunch is included in admission price. Doors will open at 11:15 AM on the day of the event for check-in, walk-in registration, and networking. Online registration is available at <https://hamptonroads.afceachapters.org/lunch-and-learn>.
